Dear Kelly,

As we just discussed on the phone, I'm writing with the corrected comments. The first two PDF attachments would be to replace the comment letter and Attachment 2 from our comment submitted on July 23. We would prefer that you replace the documents in our original comment with these files. (These are named "Joint Comments Letter (corrected)" and "Attachment 2 (corrected).") No changes are needed for attachment 1.

If it is not possible to replace the documents in the original comment, please use the other attachment as a new comment. The last attachment is the corrected combined comments in one PDF (with an explanatory letter for the revision, the comment letter, and two attachments). Please use that file if we need to have a new comment entry. (This is named "Revised Comments - (merged) 2018-07-25.")

Thank you,
Marshall

Dear Ms. Sherman,

I have been communicating with Ms. Perry about posting revised comments on docket EPA-HQ-OPP-2018-0141 (see below). Essentially, the attached PDF should replace our previous comments due to some inadvertent errors.

I just got Ms. Perry's out-of-office reply, forwarding me to you. I am hoping you can help with this issue, or could you please direct me to the docketing staff that can?

Thank you,
Marshall Morales

Dear Ms. Perry:

I've been instructed to send a revised, merged copy with the attached letter explaining that these comments should replace our prior comments. I understand that these need to be filed as a separate comment entry, which is fine. Please use the attached copy (with the cover letter) for that revised submission instead of the PDFs I sent previously.

Thank you for your help,
Marshall Morales

Subject: Amendment to comment on OP BiOp

Dear Ms. Perry:

Yesterday Wiley Rein submitted comments on the NMFS BiOp under docket EPA-HQ-OPP-2018-0141, with the comment tracking number 1k2-94fy-wotu. Unfortunately, one of the PDF attachments was incomplete.

I am attaching the correct Attachment 2 here, and I am hoping you can please replace the prior version of our Attachment 2 with this document. Please let me know if this is possible or if you have any questions.

Thank you,
Marshall Morales
